GEOFENCE INFORMATION

Since December 1, 2023, DHS changed the geofence rule for EVV.

A geofence is a circle around the person's home. It helps the system know if you are close enough when you clock in or clock out. The rule now says you must be within 500 feet of the client's home.

The system only checks your location when you start and end a visit. It does not track where you are while working.

To follow the new rule, the EVV app and webpage were updated on November 15, 2023. This update is only for caregivers; nothing changed for responsible parties.

You can still give care in the community. This change does not stop services from happening outside the home.

WHO IS A LIVE IN CAREGIVER

Live in Caregivers may qualify for an exemption from real time EVV requirements. If eligible and properly documented, they must enter required data once per day instead of clocking in and out per visit. More details about required documentation and process eligibility will be shared via Paylocity in the next few weeks.

For more about EVV, visit the DHS EVV webpage.

If you have additional questions, please reach out to your Lifeworks service coordinator.

THINGS TO KNOW

EVV COMPLIANCE REQUIREMENT

Important update regarding Electronic Visit Verification (EVV). As part of the 21st Century Cures Act, the Minnesota Department of Human Services (DHS) will start full enforcement of EVV beginning January 1, 2026.

What This Means for You

All employees must clock in and out of visits in real time - that is, at the actual time they begin and end their services.

Employees and Responsible Parties will continue to use their current designated EVV timekeeping system (Cashé or Pavillio).

Live in Caregivers may qualify for an exemption from real time EVV requirements. If eligible and properly documented, they must enter required data once per day instead of clocking in and out per visit. More details about required documentation and process eligibility will be shared via Paylocity in the next few weeks.

Responsible Parties must review and approve time entries at least weekly; daily review and approval are recommended.

Benefits to You

Improved Issue Resolution: Real-time data allows Lifeworks and Responsible Parties to address concerns more quickly.

Improved Accuracy: Ensures services are recorded in real time, reducing errors and discrepancies.

You don't need to wait until January 1st to get started; you can begin today by clocking in real-time. Thank you to everyone who is already following this requirement.

We have updated our email system to better support you:

Contact EVVTimeSupport@lifeworks.org for questions related to hours worked.

Contact CASupport@lifeworks.org for questions related to using the Cashé/Pavillio apps.

Contact Payroll@lifeworks.org for questions regarding paychecks.
